

# Harnessing the power of AI to **reclaim healthcare dollars** for employees & employers.

From saving on healthcare bills, to choosing the right health insurance, Reclaim proactively engages plan members with their healthcare benefits and ancillary programs based on their own health visits and claims data based on other people just like them.

Reclaim's advocacy is powered by itemized and detailed healthcare claims data. Leveraging each member's personal claims, Reclaim surfaces insights to employees and employers that save money and improves benefits adoption and engagement.
